President's Message

Hello Granite State Members!

We had a great session in February on the ANSI Fall Protection Change in 2023 presented by Cesar Ahumada. This month we held a joint technical meeting with the Keene State Student Section on March 21st. Greg Mefano presented on Construction Site Inspections at the TDS Center at Keene State College.

As always, we continue to look for topics of interest from the Granite State Members; if there is a technical subject you would like to hear a presentation on, please contact me and I will see if we've got a network contact with experience in that particular arena.

Also, if you are interested in hosting a meeting we're always looking to hold face to face meetings at new locations in order to accommodate membership from different locations across the states we support.

Thank you,
Joe Orazio

Granite State Welcomes our New Members!

Driving Safety Tips

Author: Jeff Slark - ASSP Granite State Nominations & Elections Chair

Source: <https://risksafety.humboldt.edu/>

Every year, approximately 40,000 lives are lost as a result of motor vehicle accidents. This number has leveled off after the steepest two-year increase in the last 50 years. The cost to society for the serious accidents is estimated at around \$400 billion. This has an effect on all of us: drivers and non-drivers. The recent staggering increases in these areas has many contributing factors, but one undeniable factor is the increase in technology, specifically cell phones.

We can all do our part and take responsibility for our driving:

- Practice defensive driving. Buckle up, designate a sober driver, or arrange for alternative transportation.
- Understand the dangers of drugged or drinking driving, including the impairment of prescription opioids.
- Follow 3 Second Rule: staying at least three seconds behind any vehicle in front of the driver's vehicle. This is not absolute rule, but a guidance principle.
- Keep your vehicle maintenance up to date. Getting the oil changed regularly, monitoring tire treads, and getting your windshield wipers changed each year.
- Check your vehicle for safety recalls and fix them immediately.

**BE SAFE.
DRIVE SMART.**
